

ISO 42001:2023 Artificial Intelligence Management System Foundations Course

Do you want to understand the ISO 42001 Artificial Intelligence Management system?

This one-day course covers the main clauses of ISO 42001:2023 Artificial Intelligence Management System (AIMS) and looks at how the standard differs from ISO 27001 for Information Security. The objective of the course is for course participants to gain a foundational knowledge of ISO 42001 and covers the unique aspects of the importance of trust, transparency, and reliability in AI.

A photograph of the Toronto skyline at night, featuring the CN Tower prominently in the center, illuminated with blue and red lights. The city lights and the tower's reflection are visible in the water in the foreground.
